In regards to: MACo Annual Conference in Great Falls

Greetings Commissioner Chilcott

Once again the MACo conference is upon us and I would like to extend an invitation to visit our booth and preview our existing and exciting new product line.

The Montana Correctional Enterprises (MCE) mission is to provide employment and training opportunities to eligible institutional offenders. The Industries operations offer production oriented training and work assignments in manufacturing programs including furniture, upholstery, printing, signs, custom cowboy boots, sewing and embroidery, and hygiene kit assembly. Your support of prison industries is important to us and necessary in order for these programs to continue.

We at MCE are anxious to provide you with quality office furniture, custom design logo apparel, signs and your printing requirements. There will be several examples of our products available for viewing. I will be available to discuss your specific needs at the MCE booth #42 on Sunday evening and all day Monday, Tuesday, and Wednesday.

I look forward to meeting you at the conference and discussing how MCE can be of service to you and your county's needs.

Sincerely,

*Jack Hinkle*
